Traffic Safety and Sustainable Cities: Challenges for Meeting the SDG Targets, Road Safety Governance and Leadership

A workshop hosted by ICoRSI and TRIP Centre at IIT Delhi will focus on addressing challenges in data acquisition, emerging traffic risks, and opportunities for achieving traffic safety and SDGs by 2030. The workshop aims to strengthen injury surveillance systems, discuss new technologies in urban transport management, and enhance knowledge sharing.

The participants will include road safety managers and practitioners from road safety lead agencies to discuss and present learnings from various structures of lead agencies established at a national and a sub national levels. Expert panel will share lessons learnt from global best practices on road safety governance models.

31st August 2024, India Habitat Centre
